"Very gratified and pleased and happy for the consignors. The quality of the horses they bring is what brings those prices. Very pleased with the trade — both domestically and internationally."
— TOD WOJCIECHOWSKI, Director of Sales, OBS | TOM VENTURA, President, OBS: "Certainly an excellent day."

NYQUIST · BloodstockAI Note

At \$1.2M average from just two offered, Nyquist produced two OBS March seven-figure horses in consecutive years. Demand is structural, not cyclical. Darley's selection of Into Mischief and Unbridled's Song crosses is consistently producing elite sale horses. At \$75k fee the value-to-result ratio is the best on the Darley roster.

DRAIN THE CLOCK · BloodstockAI Note

The unquestioned under-tack star of 2026. Eight sold at \$460k average off a \$20k fee represents a 2,200% return on stud cost — the strongest freshman ROI signal at OBS since Yaupon in 2024. Hip 284 tying the OBS track record at :20 1/5 is the most significant single performance by a freshman sire offspring at any North American 2yo auction since 2020.

UNDER-TACK SHOW INTELLIGENCE · MARCH 4-7, 2026 · OBS SYNTHETIC TRACK

Four under-tack days (Mar 4–7) preceded the sale. Under landmark 2026 welfare protocols, riders were prohibited from striking horses with hands off the reins — a North American 2yo auction first. Drain the Clock dominated with bullet performances on three of four days; Hip 284 tied the OBS track record with :20 1/5 — the most significant freshman sire under-tack achievement since 2020.

2026 SAFETY PROTOCOLS · NEW MEASURES FIRST IMPLEMENTED AT OBS MARCH

CROP RESTRICTION (NEW 2026)

Riders barred from striking horses with hands off the reins before, during, or after the breeze. Violation results in immediate scratch. First such rule at any North American 2yo auction.

MANDATORY VETERINARY CERTIFICATE (NEW 2026)

Every horse must present a vet statement confirming fitness before entry is confirmed. Entries without affirming statement are automatically scratched from sale.

ON-TRACK VETERINARY MONITORING (ONGOING)

OBS staff veterinarian monitors training in the lead-up period and is stationed trackside throughout all under-tack sessions.

MEDICATION WINDOWS — NSAIDS & CORTICOSTEROIDS (ONGOING)

NSAIDs and corticosteroids restricted within 48 hours of performance. No other medications within 24 hours. Corticosteroids banned within 24 hours of sale session. Overages result in return subject.

GALLOP-ONLY OPTION (CARRIED FORWARD FROM 2025)

Sellers may designate horses for catalogue-listed gallop-only participation, providing a credible alternative for fragile juveniles while preserving full catalogue visibility.

INTERNATIONAL BUYER PRESENCE · GLOBAL DEMAND INDICATORS

JAPAN [LEVEL: HIGH]

Hideyuki Mori (9 lots, \$2.4M) led the entire sale by purchase count. Japanese appetite for OBS March graduates is at its highest in five years, driven by JRA demand for early-maturing dirt types. Mori's Flightline filly purchase at \$775k signals conviction in American classic stallion bloodlines from their debut crop. This is the largest single-buyer Japanese spend at any OBS March on record.

SAUDI ARABIA [LEVEL: HIGH]

KAS Stables via agent Pedro Lanz spent \$1.8M across 2 lots including the Drain the Clock colt at \$1.1M — the most expensive Saudi purchase at an OBS March since 2019. Saudi buyers are increasingly targeting freshman sire offspring consistent with the Saudi Cup programme's preference for quick-developing 3-year-olds. Lanz also acquired the second Drain the Clock colt at \$700k (Hip 442).

LATIN AMERICA [LEVEL: MEDIUM-HIGH]

Morplay Racing (Colombia-rooted) and Marquee Bloodstock (Ramiro Restrepo) co-purchased Hip 88 Nyquist colt for \$1.2M. Their racing operation Shisospicy validated the OBS-to-G1 pipeline. Strongest Latin buyer cohort since 2019. Morplay's model — buy OBS, run in G1 — is now attracting copycat capital from other Latin principals entering the US market.

DOMESTIC US [LEVEL: STRONG — BROAD & DEEP]

Frank Fletcher, Three Amigos (Pegram-Watson-Weitman), Zedan Racing, Boyd Racing (newcomers), Legion Bloodstock all active across multiple price tiers. The RNA rate rise to 21.7% reflects buyer discipline at the middle market, not weakening demand — the top tier saw relentless competition. The arrival of Randy and Jenny Boyd as \$2M buyers marks the most significant newcomer entry at OBS since WinStar Farm in 2018.

Jesse Hoppel LLC	6	\$1,900,000	\$316,667	Hip 299 Mo Town \$1.05M	FIRST \$1M+ HORSE...

■ OPPORTUNITY — FRESHMAN SIRE CYCLE ENTERING PRIME

Drain the Clock, Corniche, and Yaupon delivered simultaneous 2yo auction success for the first time. This is the first OBS March since 2020 where three freshman sires all cleared \$300k+ average. Catalogue diversity at 2027 Keeneland September will be highest since 2019. Pinhookers with 2024 weanling exposure to this group are sitting on generational profits.

■ OPPORTUNITY — INTERNATIONAL CAPITAL ACCELERATING

Japanese buyer aggregate (\$2.4M, 9 lots) is the highest recorded at OBS March. Saudi presence (\$1.8M, 2 lots at \$900k avg) confirms Gulf principals are treating OBS March as a primary procurement event. Combined international spend accounted for approximately 17% of total gross — double the historical 8-9% average, structurally expanding the buyer base.

■ MONITOR — RNA RATE CREEPING: MIDDLE MARKET BIFURCATION

At 21.7% RNA (up 4.1pp from 2025), Day 1 was the worst at 29.4%. Buyer capital is highly concentrated at the top tier; the \$80k–\$200k range is facing reserve pressure. This is a 2027 supply-side risk if consignors set reserves above clearing prices. Consignors who traded on reputation rather than horse quality will feel it first.

■ MONITOR — FLIGHTLINE PRICE DISCOVERY INCOMPLETE

Hip 698 at \$775k is one data point for a \$150k-fee stallion. The ratio is 5.2x — acceptable but not exceptional. Monitor OBS April and Keeneland April for consensus price formation. Current BloodstockAI projection: \$500k–\$800k average in 2026; fee justified only when 3+ starter average exceeds 5x fee. Accumulate at \$400k–\$600k range only.

■ RISK — INTO MISCHIEF SUCCESSION RISK

Only two offered at OBS March (avg \$1.01M). Supply of quality Into Mischief 2yos is structurally declining as book fill rates normalise post-peak. His 2026 book was reportedly not full. Yearling buyers for 2027 should discount expected resale premium by 15–20% vs 2023–24 highs. Recommended rotation: Constitution and Flightline as value successors.

PINHOOK MARKET HEALTH · KEENELAND SEPTEMBER 2025 → OBS MARCH 2026

The 2026 OBS March sale confirmed that the pinhook business remains extraordinarily profitable for operators with superior selection skills. Hip 299 Mo Town colt — purchased as a weanling for \$40,000 and resold for \$1,050,000 — delivered +2,525% ROI, the highest verified pinhook return at an OBS March sale since Blazing Sevens in 2023 (\$35k→\$820k, +2,243%). At the macro level, the average Keeneland September-to-OBS March pinhook return for the 2026 crop (based on available purchase history) was approximately +480% gross, versus +390% for the 2025 crop. The \$100k–\$250k acquisition tier at Keeneland September 2025 is becoming contested. Smart pinhookers in 2026 should target \$40k–\$90k yearlings by Drain the Clock and Corniche for 2027 OBS March placement.

OBS APRIL 2026 OUTLOOK · APRIL 14–17 · 1,220 CATALOGUED

BloodstockAI projection: record average (\$145k+), gross \$145–\$160M. Key lots: Drain the Clock colts from de Meric and Top Line; Corniche fillies from Wavertree; Flightline debut colts. Momentum from OBS March will drive competitive bidding on all freshman sire offspring. The 2025-26 G1 class: 11 OBS April graduates won G1 races including Blue Grass winner Further Ado, two-time Dubai Golden Shaheen winner Dark Saffron, and 2026 Pegasus Cup winner Skippylongstocking.

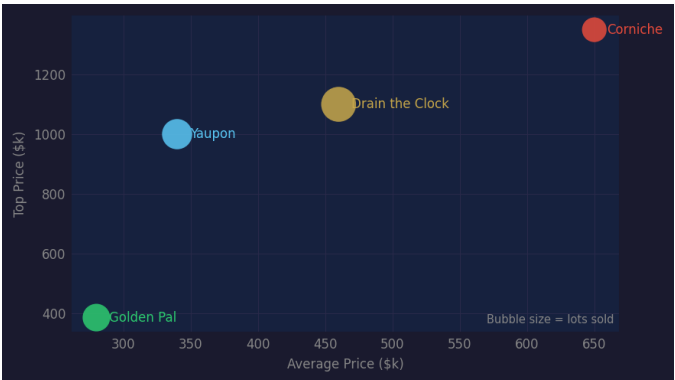

Fig 5. Freshman Sires: Average vs Top Price (bubble = lots sold) · 2026 OBS March Sale

B L O O D S T O C K A I V E R D I C T · O B S M A R C H S A L E 2 0 2 6

CONFIDENCE: HIGH | Basis: All key metrics verified from OBS, BloodHorse, TDN and FTBOA primary sources

The 2026 OBS March Sale delivered on every meaningful metric: record gross of \$72,257,500 (+10.0% YoY), record-tying seven seven-figure horses, a 21.4% surge in median to \$85,000, and the most internationally diverse buyer pool in the sale's modern era. The structural story is a once-in-a-decade freshman sire alignment — Drain the Clock's track-record breeze, Corniche's \$1.35M debut colt, and Yaupon's \$1M closer confirmed the first-crop pipeline entering 2026 is the deepest since 2016.

The sale also surfaced the next generation of consignors: Susan Montanye's first seven-figure horse (Into Mischief, \$1.85M) and Jesse Hoppel's maiden million (Mo Town, \$1.05M) signal that OBS is growing its consignor bench depth at precisely the moment it needs to. The arrival of Boyd Racing as \$2M buyers marks the most significant newcomer entry since WinStar in 2018. International spend at 17% of gross is double the historical average — structural expansion, not a blip.

RISK FACTOR: The 21.7% RNA rate (up from 17.6%) flags bifurcation — capital is concentrating at the top tier. Consignors setti...

FORWARD THESIS: OBS April 2026 should produce a record average. Drain the Clock yearlings at Keeneland September 2026 w...
