Sale Overview

The 2026 Magic Millions Gold Coast National Weanling Sale (Book 1) presents 354 lots catalogued for Sunday 24 May, comprising 187 colts (52.8%) and 165 fillies (46.6%). BloodstockAI has scored all lots using a proprietary pedigree depth model measuring Gr.1/Gr.2/Gr.3 density across sire profile, dam record and four generations of family. Champion-sire lots account for 170 (48.0%) of the catalogue — an unusually high concentration of elite bloodlines.

| ANAMOE         | 8    | 3     | 5       | 22.6      | 2.3%            |
| OZZMOSIS       | 7    | 3     | 4       | 13.5      | 2.0%            |

ANAMOE DOMINANCE

- 8 lots — highest avg score (22.6) of any sire in catalogue
- Lot 312 (score 33.2) is a once-in-generation pedigree cross
- First-crop fillies particularly rare — Lots 309, 312, 38, 39
- All 8 lots above catalogue average — exceptional consistency
- Expect aggressive bidding — A\$500K+ ceiling for top lots

FIRST-SEASON SIRE OPPORTUNITY

- Ole Kirk: Leading FS Sire 2024-25 — peak market trajectory
- Ozzmosis: VRC Coolmore winner — debut crop excitement
- Hawaii Five Oh: Full brother/dam to Gr.1 winners
- Native Trail: Rare European Champion 2YO in first Aust. crop
- Artorius: 2×Gr.1 — 9 lots, highest avg quality among volume sires

FOALING MONTH STRATEGY

- August foals (107 lots) offer best blend of readiness + value
- September peak (131 lots) — most competitive but most choice
- November foals (23) may present ring value vs physical maturity
- Early August cohort typically commands 8-15% price premium
- Late Oct/Nov — watch for sires that mature slower (e.g. Wootton)

INTERNATIONAL SIRE ANGLE

- Wootton Bassett (GB): 912 rnrs, 531 wnrs — global Gr.1 factory
- Justify (USA): Triple Crown sire — rare pedigree intersection
- State of Rest (IRE): Champion Older Male in France & Ireland
- Native Trail (GB): Dewhurst + Irish 2000 Guineas Gr.1 winner
- International sires currently undervalued in Aust. weanling market

GENDER MARKET DYNAMICS

- Colts outnumber fillies 52.8% vs 46.6% — filly scarcity premium
- Elite filly (Lot 312) scores highest in entire catalogue
- Filly average score (11.0) slightly below colt average (12.4)
- High-quality fillies for breeding programs — often best ROI
- Consider colts from champion sires for track performance upside

VALUE TIER SLEEPERS

- Lot 276: Hawaii Five Oh filly — score 13.8, deep G1 family
- Lot 141: Jonker filly — score 13.2, underrepresented sire
- Lot 256: Kobayashi filly — score 12.8, European dam angle
- Lot 35: Farnan filly — score 12.2, brother Golden Slipper winner
- Lot 214: Brutal colt — emerging sire, strong maternal family

KEY THEMES & STRATEGIC RECOMMENDATIONS

Anamoe is the undisputed focus of this catalogue.

Eight lots spanning 3 colts and 5 fillies, all from elite dam families. Lot 312 (Franschoek, 2nd dam Guelph — 4×Gr.1 Champion) is arguably the best-pedigreed weanling offered in Australia in 2026. Expect intense domestic and Asian buyer competition.

First-season sires offer asymmetric upside.

Ole Kirk (Leading FS Sire 2024-25), Ozzmosis, Hawaii Five Oh and Artorius all represent sires whose market value will be substantially determined by results over the next 12 months. Buying quality lots by these sires now captures pre-proven upside at weanling prices.

European sires are systematically undervalued.

Wootton Bassett, Native Trail, Justify, State of Rest and Pinatubo all present with high pedigree depth scores relative to their current Australian market pricing. The cross of European Gr.1 precocity over Australian sprint blood has historically produced elite dual-hemisphere performers.

September is the dominant foaling month (37.0%).

This concentration creates ring fatigue mid-session — buyers may overlook well-pedigreed September lots in the second half of the session. Lots 80, 196, 270 are September foals with Elite/Premier scores worth monitoring closely.

SCORING METHODOLOGY

BloodstockAI's Pedigree Depth Score (PDS) is a proprietary quantitative model that measures the concentration of elite black-type performance across the pedigree of each weanling. The model does not attempt to predict sale price (which reflects market dynamics, vendor reputation, physical inspection and buyer appetite) but rather provides a consistent fundamental value anchor based on the hereditary quality catalogued.

| Component                    | Weight             | Description                                             |
|------------------------------|--------------------|---------------------------------------------------------|
| Gr.1 appearances in pedigree | 1.0 per reference  | Counts every Gr.1 win or place in 4-generation pedigree |
| Gr.2 appearances in pedigree | 0.5 per reference  | Counts every Gr.2 win or place in 4-generation pedigree |
| Gr.3 appearances in pedigree | 0.25 per reference | Counts every Gr.3 win or place in 4-generation pedigree |
| Champion sire/dam bonus      | +3.0 flat          | Applied when "Champion" or "Horse of the Year" is noted |
| Dam G1 record bonus          | +2.0 per G1        | Extra weight for dam's own Gr.1 black-type performance  |

GLOSSARY

|                                   |                                                                                              |
|-----------------------------------|----------------------------------------------------------------------------------------------|
| <b>Gr.1 / Gr.2 / Gr.3</b>         | Group race classifications — the elite structure of international Thoroughbred racing        |
| <b>SW (Stakes Winner)</b>         | A horse that has won a Group or Listed race — a meaningful benchmark of quality              |
| <b>PDS (Pedigree Depth Score)</b> | BloodstockAI's proprietary score — higher = stronger hereditary black-type density           |
| <b>Elite Tier (20+)</b>           | Championship pedigrees — generational bloodlines, top commercial demand                      |
| <b>Premier Tier (14–19.9)</b>     | Strong commercial depth — expected auction standout performers                               |
| <b>Standard Tier (9–13.9)</b>     | Solid foundation horses — competitive ring prospects at appropriate price points             |
| <b>Value Tier (&lt;9)</b>         | Speculative or breeding project lots — upside via market inefficiency or undiscovered family |
| <b>Dam Sire</b>                   | The sire of the dam — the maternal grandsire of the weanling                                 |
| <b>Keep Watch</b>                 | BloodstockAI designation for lots ranked #31–#112 with Premier/upper Standard scores         |
| <b>Sleepers</b>                   | Lots below champion-sire threshold but with strong dam family depth — potential value        |
| <b>HoY</b>                        | Horse of the Year — the highest annual racing honour in Australia or internationally         |
| <b>FS Sire</b>                    | First-Season Sire — a stallion whose first crop of runners are 2YOs for the first time       |
| <b>COI</b>                        | Coefficient of Inbreeding — a mathematical measure of relatedness within a pedigree          |
