EXECUTIVE SUMMARY

Rosalba (IRE) is a Bay Maiden Mare by Dubawi (GB) out of Rosalinde (IRE), foaled in 2020. As a first-season broodmare, the primary commercial objective for 2025 is to establish her reproductive value through a carefully selected pairing targeting Tattersalls October Book 1 in 2027. The Frankel × Dubawi combination represents the highest-priority nick (Grade A), documented with 8 Group winners from 23 foals. Inbreeding coefficient of 4.2% is within the ideal range. Median foal value projection: £320,000. Target covering: end of March 2025.

BLOODSTOCK AGENT RECOMMENDATION

As a maiden mare, target Frankel if budget allows. Wootton Bassett or Kingman offer equivalent nick quality at lower fee, protecting against unknown-producer risk while maintaining Book 1 commercial upside.

SEASON TIMELINE 2025–2027

Establish base reproductive value

Use sire ≤ £60k for season 1. Prove the mare before committing to premium fees.

Prioritise nick over brand

Nick compatibility and pedigree complementarity outweigh stallion brand or fee alone.

Target commercially active sires

Sires with proven first crops or strong market records at Book 1/2 level preferred.

Assess first foal before upgrading

Evaluate type, conformation, and auction result before escalating sire tier in Year 2.

Re-evaluate after first foal

If foal sells above £280k median, upgrade plan and sire budget for 2026 season.

Avoid unintentional inbreeding

Flag any 3×3 or closer duplications. Sadler's Wells 3×5 — acceptable. Monitor.

Cover by end of March 2025

Secure February 2026 foal for maximum yearling age at Tattersalls October 2027.

Weatherbys registration

Register foal within 30 days of birth. Breeding return filed by 31 December 2025.

Jan 2025

Assessment & Plan Draft

Pedigree, nick, inbreeding complete. Sire shortlist by agent.

Feb 2025

Sire Confirmation

Confirm Frankel/Wootton Bassett. Contact stud for availability.

Mar–Apr 2025

Covering Window

Target first cover end of March. Two attempts if needed.

May 2025

Pregnancy Scan (D14+D28)

Confirm pregnancy. Twin reduction if needed. Update Weatherbys.

Feb–Mar 2026

Foaling

Target Feb foal. 24hr watch from 1 Feb. Weatherbys registration.

Apr–Oct 2026

Mare Returns to Stud

Plan 2026 covering. Re-assess sire tier from first foal quality.

Aug 2027

Yearling Preparation

Breaking, pre-sale production. Pre-entry Tattersalls by June.

Oct 2027

Tattersalls October Sale

Book 1 target. Pre-sale vetting. Aim: hammer above £280k.

BLOODSTOCK NOTE — AGENT RECOMMENDATION

As a maiden mare with strong commercial pedigree (Dubawi × Galileo-line), Rosalba presents a genuine opportunity at Book 1 if covered by Frankel or Wootton Bassett. The first foal will be the critical data point: a well-made colt by either sire could exceed the £320k median. Secure a Frankel covering this season and review the mare's tier for Year 2 based on that foal's Tattersalls reception.
